## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group I, claims 1-7**, drawn to a roll forming apparatus,

**Group II, claim(s) 8-11**, drawn to a metal frame member, and

**Group III, claims 12-15**, drawn to a constructing process.

Evidence of lack of unity exists because there is no common technical feature between the three groups. The special technical feature of Group I is the formation of a U- and C-shaped formation by rolling on a channel profile simultaneously on the same sheet strip. The special technical feature of Group II is a swaged narrow U-shaped section relative to a C-shaped section of a channel. The special technical feature of Group II is the controlling of the rolling apparatus through a data and recording system.

## **ELECTION**

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

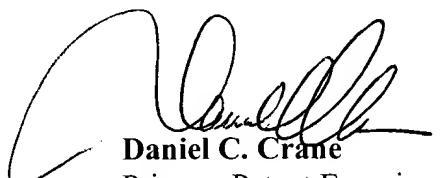

## INQUIRIES

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner D. Crane whose telephone number is **(703) 308-1870**.
